PortableToiletChemicals.com ToiletChemicals.com

When ordering with a portable toilet purchase, we ship 1 drum in 11 - 5 Gallon pails at the drum price. This reduces the freight cost by reducing the cu. ft. The chemical ratio is 1 to 100 gallons of water.

To request a quote e-mail:

info@toilets.com

Two 5 Gallon pails can ship in any of our portable toilet holding tanks. The chemical mixing ratio is 1 to 100 gallons of water.

To request a quote please E-mail:

info@toilets.com

The handy One Gallon size container of our EMJ 2075 mixing ratio is 1 to 100 and will work in RV and/or portable toilets.

EMJ2075

Wild Cherry

Portable Restroom Deodorizer
CONCENTRATE

MIXING AND USE DIRECTIONS

EMJ2075-F masks the odor in portable toilet holding tanks. Use in 5 gallons (20 liters) of water, leaving behind a fresh scent. Our chemical will keep a constant deep blue color. The resulting solution can also be used to clean and deodorize the entire unit.

Use the method that works best for you:

Heat/Traffic	RTU Mix	Conc Use
Moderate & Low-Medium	3 - 6 oz (90-180 ml)	1 - 3 oz (30-90 ml)
Moderate & Heavy	4 - 8 oz (120-240 ml)	1 - 4 oz (30-120 ml)
Extreme & Low-Medium	4 - 8 oz (120-240 ml)	1 - 4 oz (30-120 ml)
Extreme & Heavy	8 - 12 oz (240-360 ml)	3 - 8 oz (90-240 ml)

DISPOSAL AND STORAGE

- Triple rinse container.
- Dispose of in sanitary landfill or by method approved by state and local authorities.

DO NOT CONTAMINATE WATER, FEED OR FOOD
ALWAYS KEEP CONTAINER CLOSED WHEN STORED **MADE IN THE USA**

KEEP OUT OF REACH OF CHILDREN

- **CAUTION; DO NOT INGEST. PROTECT EYES AND SKIN FROM CONTACT WITH THIS CHEMICAL. USE EXTREME CARE WHEN HANDLING THIS PRODUCT – THIS PRODUCT WILL STAIN. AVOID PROLONGED OR REPEATED BREATHING OF VAPOR AS THIS MAY CAUSE ALLERGIC REACTION.**

FIRST AID:

For Ingestion: Drink 1 - 2 glasses of water. Induce vomiting by sticking finger down throat or by giving soapy or salty water to drink. Repeat until vomit is clear and call a physician. Never give anything by mouth to an unconscious person.

Eye Contact: Immediately flush with water. Consult a physician immediately.

For Inhalation: Remove person to fresh air. If breathing is difficult, give oxygen. Call a physician.

Skin Contact: Immediately flush with water. Remove and wash contaminated clothing and footwear. If irritation occurs, consult a physician.
