# Sani Jon® Chassis Comfort Stations

When a Portable Toilet is Not an Option

**Sani Jon® Chassis** is now a sanitation platform for our patented [www.comfortstation.com](http://www.comfortstation.com). Models SJSPCS 600 and SJSDCS 520 are both manufactured on the Sani Jon® Chassis.

**The Comfort Station** utilizes a ground level lavatory with ceramic fixtures. The ceramic fixtures offer fresh water flushing toilets and fresh water hand wash sinks.

**How It Works:** The Comfort Stations can utilize a water source such as a garden hose or water storage tank. Waste disposal can be accomplished with a holding tank, a sewer or a septic tank.

**Standard Features:** Ground Level - Ceramic Flush Toilet – Ceramic Hand Wash Sink with a 9 Second Automatic Shut-Off Water Saving Feature - Vinyl or Wood Flooring – Treated Wood Runners, Wood or Fiberglass Decorative Interior Walls - Foaming Hand Soap Dispenser – Paper Towel Dispenser – Jumbo 9” Tissue Holder (5 Roll Equivalent) – Starter Consumables Supply - Mirror – Waste Basket

**The Available Options Include:** electric service, water pressure pump with filter, tankless water heater, air conditioning Model 4848E ([page 8](#)), heater, electrical receptacle, safety light and 300 gal, (1,200 liter) water or waste holding tank

**Encapsulation of the Holding Tanks: Security Concerns or Cold Weather Conditions** can be met with the encapsulation of the water and waste holding tanks ([page 5](#)).

Comfort Stations ship fully assembled and can ship 10 to 20 per 40’ shipping container ([depending on the model Comfort Station](#)).

## Single Stall Model 4848EHD – Rear & Side Wall, Mounted Fixtures

1. Exhaust Fan – has separate on/off switch mounted on left wall.
2. Automatic Paper Towel Dispenser – 4 “C” Batteries are installed. Automatic eye is taped over for shipment. One complete towel roll is in dispenser, additional towel roll is in the consumables box packed in unit.
3. Mirror
4. Automatic Foaming Soap Dispenser – shipped empty, soap is included in the consumables box packed in unit.
5. Corner Sink with nine (9) second automatic water-saver faucet.
6. Wall Mounted Hand-Held Bidet
7. Studor Vent
8. Cistern – top mounted, water-saver flush for both heavy and light toilet usage.
9. Double GFI 100v (US) Electric Receptacle
10. Water Pressure Pump – contains a strainer with sight gauge. This pump will be used ONLY to draw water supply from a holding tank. Turn lever to “red” to utilize pump and turn lever toward “blue” for all other water sources.
11. P-Trap Toilet and Toilet Seat – toilet is fastened to the wall and the floor. Toilet waste line exits through the wall and can be connected to a holding tank, septic tank or sewer (mains).
12. Safety Fluorescent Light - switch on opposite wall
13. Clothes Hooks
14. Large Toilet Paper Holder - 100% recycled Paper
